

- Q1. Do you keep litter bins in stock?**
 A. Yes, various designs of cast iron, mild steel, stainless steel and plastic litter bins are kept in stock.
- Q2. Which is your most popular litter bin?**
 A. The most popular litter bin currently supplied by Broxap is the Derby litter bin. This is regarded as the toughest litter bin in the UK.
- Q3. Are you able to provide a demonstration of a litter bin?**
 A. Yes, we are able to provide a demonstration on any of our litter bins on request.
- Q4. Is it possible to have a trial period of a litter bin?**
 A. Yes, we are able to offer a litter bin on trial for a 3 month period without obligation after which time the litter bin may be purchased or returned to Broxap.
- Q5. Out of what materials may litter bins be manufactured?**
 A. Broxap manufacture litter bins from a number of materials: Cast Iron, Ductile Iron, Mild Steel, Stainless Steel, Plastic and Concrete. Full information on our litter bin range is detailed in the Broxap Main Product Catalogue.
- Q6. What colours are the cast iron & steel litter bins available in?**
 A. We offer a range of standard colours for our litter bin range. We are however able to supply litter bins in other RAL or BS colours on request. Please contact a member of our sales team for further information.
- Q7. Are replacement liners for the litter bin range available?**
 A. Yes, replacement liners are readily available for any litter bin in our range.
- Q8. How are Litter Bins fixed to the ground?**
 A. All litter bins are supplied with fixing kits to enable secure fixing.
- Q9. Are replacement locks and keys available?**
 A. Yes, replacement locks and keys are readily available for any litter bin in our range.
- Q10. Is it possible to provide logo's on all litter bins?**
 A. Yes logos in various forms may be incorporated into most litter bin designs.
- Q11. How long does it take to refurbish a litter bin?**
 A. On average the time taken to refurbish a litter bin is approximately 1 week.
- Q12. Are the post mounted litter bins supplied with or without posts?**
 A. The majority of post mounted litter bins may be supplied with a dedicated post or may be supplied with a stainless steel banding tape bracket to secure the litter bin onto an existing post.
